About Shayne Toporowski

Raised in Paddockwood a small village of 200 people in Northern Saskatchewan, I am the youngest of 4 boys and I began skating at 2 years old on our backyard rink. The hockey player I am today largely reflects the countless hours of FUN I had on that backyard rink. That FUN is the foundation of what I'm using to build upon today with player development.

At age 13, I was drafted 5th overall in the WHL Major Junior Draft. At 17 years old I played my first full season with the Prince Albert Raiders of the WHL. After having a successful first year I was eligible for the June 1993 NHL Entry Draft where I was selected in the 2nd round, 42nd overall, to the Los Angeles Kings. A childhood dream came true for me when at 18 years old, during an exhibition game in my second training camp with the Kings, I was put on a line with Wayne Gretzky and and Jarri Kurri. They were the two players I idolized growing up when they were playing with the Edmonton Oilers.

I began my pro career at 20 years old with the Toronto Maple Leafs Organization. While in the AHL (St. Johns Maple Leafs) I was named Rookie of the Year, earning a small stint with the NHL Leafs during my second year pro.

I went on to play 5 seasons of pro in the AHL, then took my game to Europe. I played in the top Finnish league, the SM-Liiga, for nine of the twelve seasons I was in Europe. I was selected as assistant captain and captain during the last 4 years in Finland. I was awarded by the fans, the teams and the league throughout those years. On several occasions I was named Fan's Favorite Player, Player of the Month, Player of the Game, Hardest Working Player (given out monthly), Golden Helmet Award for leading scorer on my team, and I was selected to play for Team Canada in a mini tournament in Switzerland.

I have played over 1000 games in my career and I have to say that my player skills grew the greatest in Europe. I have always had the mental toughness that is established in the North American game but my knowledge of the necessary skills expanded greatly while in Europe and I am excited to share this with players from youth to professional.

I met my wife Stephanie while playing for the Worcester Ice Cats (currently the Sharks) several years ago. She has supported me throughout my career, moving from city to city, all while earning a master's degree in Counseling Psychology and raising our two active children. We currently reside in the Shrewsbury MA. area.
