

Rain Out Procedures & Contacts

IF WEATHER IS A THREAT TO PLAYING A GAME...

Mindset should be: play all games until officially cancelled/postponed. Any observed lightning is cause for immediate removal of participants to dugouts (away from poles and fences).

Managers can mutually agree to postpone until game time, after which umpires decide. League Directors decide if managers cannot agree or cancellation is involved or postponement/cancellation is for any other reason other than weather.

HOME TEAM MANAGER has responsibility for notifying umpires, Concessions Manager, your League Director, and VP of Planning of any cancellations and scheduled make-ups.

DEKALB COUNTY LIGHTNING POLICY

All play will be suspended for thirty (30) minutes following the first sighting of lightning. Each successive sighting shall delay the restart by 30 minutes until a complete thirty-minute cycle has been completed without a new sighting.

At the announcement of a severe weather watch, the organization will prepare to stop play and secure the facilities, including removing to storage all movable equipment i.e., bats, batting helmets, etc. Organization officials shall determine playability and safety of the facility and its users.

At the announcement of a severe weather warning - ALL PLAY WILL STOP - all players, spectators, coaches and league official must leave the facility in an orderly manner. The facility will be closed for use until the organization has verified that weather conditions have cleared enabling safe facility usage.

Please DO NOT assume a late e-mail or answering machine message will make contact in time. Pursue a live contact or request confirmation.
