Coaches Education

Session #2

New Curriculum and Practice Sessions

DYS COACHING PHILOSOPHY

Spring of 2014 DYS will place a large emphasis on
“Player Development” ages U6 to U14

DYS will measure success by:

- Improving player confidence
- Improving player technical skill competence
- Improving the consistency of player technical skill execution

DYS will not place a primary emphasis on “wins”, but rather
teaching to compete

DYS COACHING PHILOSOPHY

DYS will look to emphasize on the four (4) components of Player Development

The game is broken down into 4 components. Whenever running drills, coaches should try to best to insure the activities include all of these components. Coaches also need to realize it is important to teach and coach in a manner that is appropriate to both age and ability.

1. Technical: Mastery of ball skills using various body parts (Dribbling / Passing / Receiving / Shooting / Heading / Goalkeeping)

2. Tactical: Thinking part of the game without the ball. Decision making on and off the field. Recognizing width, depth, attacking role and your defending role.

3. Physical: Players physical attributes (Strength, speed, agility, size, quickness and endurance).

4. Psychological: The mental portion of the game. Optimism, leadership and overall attitude.
