Division	Max. Innings per Game / Week	Max. Pitches per game	Min. # of pitches thrown requiring 1 day rest	Min. # of pitches thrown requiring 2 days rest	Min. # of pitches thrown requiring 3 days rest	Min. # of pitches thrown requiring 4 days rest
PeeWee	2 inn. per game 4 inn. per week	55	20	41	50	55
Bantam	4 inn. per game 6 inn. per week	65	23	45	60	65
Midget	6 inn. per week	80	27	45	61	70
Liberty	6 inn. per week	90	30	50	63	80
Senior	9 inn per week 12 inn per week if playing 3 regular scheduled games in a week	100	30	55	72	95

Pitchers would be allowed to throw Max. Innings per game or Max. Pitches per game, which ever comes first.

If Pitcher reaches Max. Pitches total in the middle of a count, they would be allowed to exceed Max. Pitches total to finish pitching to that batter only.

Pitchers must rest specified number of days according to number of pitches thrown following the chart above.

The day after a pitcher pitches would be counted as the first rest day. (Example: In Midget if a pitcher throws 27 to 44 pitches on Monday, he or she can not pitch again until Wednesday. If the pitcher throws 45 to 60 pitches he or she can not pitch again until Thursday, 61 to 69 pitches, he or she can not pitch again until Friday, etc.)

Pitch counting may be conducted by any responsible adult. However, the Head Coach of the team is ultimately responsible for the pitch counts.

Both teams must compare pitch counts after each inning.

Any violation of the pitch count guidelines explained above may result in a forfeit of the game in which the violation occurred, and a possible suspension of the manager.
