

WE HAVE WEATHER PROCEDURES IN PLACE TO PROTECT EVERYONE. PLEASE SEE PROCEDURE BELOW AND FOLLOW EVERY TIME.

- 1. With bad weather we can either suspend game which means go to cars and wait until storm passes, or cancel the game.**
- 2. With lightning within 25 miles of the fields we must clear the fields/complex. You will either be told it's canceled or suspended.**
- 2. We will use the text system to send out msg to ump's and coaches. All participants must follow the instructions. If we can't get everyone to follow the procedures, we will be forced to cancel games anytime there's forecast for severe weather. Also DON'T REPLY to mass text as it freezes system and important info can't get out. We will text updates as soon as they're ready but DO NOT text asking questions during these times as again it freezes system and makes it hard to get info out.**
- 3. Again if we can't get everyone to follow the procedures we will cancel anytime severe weather is forecast.**

This is how all weather delay games will be handled:

Suspended games:

We will subtract half of the amount of time taken for delay from any game that is being played or games to follow. If a game is having to be delayed for longer than 20 minutes it will be canceled or postponed depending on the criteria listed below.

Canceled Games:

For 6 inning games, if 3 innings have been completed or 2 and one half with home team leading it is a complete game. For 7 inning games, if 4 innings have been completed or 3 and one half with home team leading it is a complete game. Game score will revert back to last completed inning. If these requirements aren't meet we will reschedule game and pick up where game left off.
