Report Completed by:

Printed Name: Phone Number:

Dear Parent/Guardian: Your child has been temporarily removed from all sports activities of the NYAA due to the possibility of a concussion. Based upon the evaluation of your child, using recommended policies and procedures for the recognition of potential concussions, your child will not be allowed to return to any sports practice or games of the NYAA until medically "cleared" to return to physical activity by a health care professional experienced in evaluating for concussion.

It is recommended that a healthcare professional experienced in evaluating concussions, evaluates your child as soon as possible. Please review this report with the healthcare professional.
