

**NON-REGISTERED PLAYER
PARTICIPATION**
POLICY NUMBER: 07
ISSUED: September 15, 2005
REVISED:

PURPOSE:

In an effort to avoid insurance and liability litigation, this policy prohibits non-registered individuals from participating in practice sessions and/or games for DAA's teams and/or their entered leagues and tournaments.

PROCEDURE:

Children who are not validly registered with DAA may not participate in any DAA scheduled practice session, scrimmage, or games. Upon validly registering with DAA, players may participate in team activities while an amended roster is processed by the respective league or tournament.

Coaches may not add players to their roster, temporary or permanent, who are not validly registered through DAA and/or the league in which the team is participating. Noncompliance may result in game forfeiture or team disqualification from its registered league. The Board will review disciplinary action of the coach for non-compliance.

A player is considered registered upon completion of the following:

1. Completing, accepting and signing (by electronic signature if using OLRs) the DAA registration form, including the waiver of liability; and
2. The Registrar has received payment in full of sports fees.

In addition, a player may not participate in a county-sanctioned game until the Code of Conduct is read and signed by the player and the player's parent/guardian.

At the sport commissioner's discretion only, a child may attend one practice session prior to DAA registration as long as the parent/guardian has signed the DAA waiver of liability prior to the practice session. After one practice session, the child must become a validly registered player per the above in order to continue participation in the DAA sport.
