The Summer Recreational League is a great way to introduce the game of soccer to kids that have never played the sport. It is also a good opportunity for returning players to continue practicing their skills during the summer. The league has licensed referees to referee all games.

2010 Competitive (Travel) Programs

Jackson Hole Youth Soccer Competitive Travel Program is for the student athlete who desires to train and compete at a higher level. Training sessions are designed to physically, technically, tactically, and mentally challenge the student athlete. The players will learn increasing dedication to the sport, develop leadership skills, and will compete for playing time on their teams.

Teams travel on weekends and play games in Jackson during the months of April, May, and June. The majority of travel is in Idaho and Wyoming with teams also traveling to other major cities to increase the level of competition.

The cost of competitive soccer is directly related to the higher caliber of coaches we now have as well as the cost to expose the players to superior levels of competition.

Jackson Hole Youth Soccer Coaching Staff

Jackson Hole Youth Soccer has made a commitment to your children and to furthering the education of all of our coaching staff. This December our coaches will participate in the US Soccer Federation "National Youth" License. This course is an intensive five day course in which coaches will learn age appropriate activities, safety, team management, and the methodology of teaching children from an educational perspective. We are excited to host this course here in Jackson specifically for our coaches to help develop the youth soccer players of Jackson.
