

Boys Coaching Convention - Sunday, February 18, Kettle Moraine

All boys coaches (youth and HS) are encouraged to attend the largest coaching convention in Wisconsin. VLC will reimburse the \$20 registration fee.

VIEW AGENDA

The Forward Lacrosse **Coaching Convention** is Wisconsin's largest lacrosse educational event EVER! *NOTE: This convention does not replace CEP Level 1 training, it is simply an additional educational and training event for coaches.*

With Headliners, Team USA Attackmen and Marquette Assistant Coach, Ryan Brown, and 2-time Big East Champion starting goalie from Marquette University, Cole Blazer. Other special guests include local Division III coaches from Beloit College, Illinois Wesleyan University, MSOE and more. The event features local successful High School coaches from all three Wisconsin conferences, as well as representatives from High School governing bodies and advisory groups such as; Wisconsin Lacrosse Federation and Wisconsin Lacrosse Coaching Association.

Similar to the US Lacrosse Convention in Baltimore, this event will be formatted in an educational "session" style which will be tailored to all audiences interested in learning more about, coaching, program development and general lacrosse knowledge. Attendees will learn:

- **New coaching methods** to help individual players achieve better performance and better team cohesion.
- **Coaching theories** that apply to a wide variety of scenarios.
- **Strategies** to give coaches and players the edge during competition.

This event offers knowledge from some of the best coaches the area that can be easily implemented into any team or program.

Utilizing both on-field sessions with live demonstration from local High School and Youth players, and classroom sessions designed for idea and discussion based sessions tailored to both coaching as well as program development. Built into the day will be opportunities for Q&A with presenters along with opportunities to network with other local coaches in order to strengthen our lacrosse community.

Since multiple sessions will be going at once, we will be recording all of the sessions and giving access to those who attend. There will also be a booklet with each session's information, such as drill diagrams and key points.

This event was created with a goal similar to our mission, to grow and elevate the game in Wisconsin. Through this event and others, we hope to move the state Forward.
