The U8-U11 Team training is part of our coach development program. The players work for three days on their technical skills under the watch of CC United's future coaches.

During this week players will be placed in different groups to emphasize the importance of playing under one age group over one team.

This will enhance each player's social ability as they will be making new friends each day and become more familiar with other members of the CC United Family

The coaches will be following a syllabus set by the Director of coaching

Please make sure that your coach cancels games and that your child prepares to attend these sessions and give 100%
