WINTER SKILLS & DRILLS

Grades 4th – 8th

This is a great opportunity for young athletes moving beyond flag football as well as those getting ready for high school, to learn and fine-tune more advanced football skills, learning the offense and defense systems of our Weston High School program. The overall objective, is for the athletes to have fun with their teammates while learning and bonding as a team. The non-contact clinics focus on technique instructions, drilling the right way, and developing self-confidence while respecting and celebrating the efforts and skills of teammates. Sound skills, self-confidence, knowledge about different offense and defense positions and systems with appreciation for teammates' efforts and roles should carry over to success both on and off of the football field. Clinic instruction is by WHS Football Head Coach Chris Pace and his coaching staff assisted by the WHS Trojans. Prior football experience is not necessary as these clinics will also introduce first time players to football skills, in addition to "tuning up" and refreshing fundamentals of experienced players.
