

Fall Softball Pitching Clinics

Come join Emma for our fall pitching clinics. Beginner pitching clinics are designed for players who are new to pitching or have little to no experience with pitching clinics and lessons. These clinics will focus on the basics of pitching with an emphasis on learning proper mechanics, warm up, and control.

Our intermediate program is for pitchers who have multiple season pitching experience, pitch for a league summer or club team, or have experience with multiple clinics or lessons. This clinic will focus on proper movements and mechanics of pitching in addition to improving accuracy & control, velocity, developing new pitches and mental game aspects. Drills, equipment and skills will progress as appropriate for the group's age group, progress and understanding. Players may register for either session individually or both of the sessions. Please use current ages when registering.
