

For those of you that may be interested, the USSF referee training course for CT begins online starting [August 1<sup>st</sup> 2011](#). This training program will allow you to become a certified referee, able to work travel games in any town. It is not required for SYSO Saturday morning rec in-house games. You must be age 13 as of June 30, 2011.

If you are interested you can go to [www.ctreferee.net](http://www.ctreferee.net). Attached here is the information for this program. There is online training done at your own pace, and then for certification you will need to attend a testing and on-field training clinic. We are in the process of determining when this course can be held on a Saturday in late October or November at [Shelton High School](#). Otherwise you can attend any offering for these training/testing clinics that are posted on the referee website (they will be adding more in future weeks). As soon as you are certified you can work travel games. There is a fee for this course, see attached.

Any questions, please contact Kris Pruzinsky at [travelrefassignor@sysonet.org](mailto:travelrefassignor@sysonet.org) .
