Wildcat Practice Facility Continues Upgrades

The Par 5 Field behind LMS has been the training and practice facility of the Wildcats going into the 7th year thanks to our partnership with the Londonderry School District. The field was once much smaller than what exists today and full of many more rocks and dirt that have since departed.

Here is a couple of photo's of how it looked at the field in 2008

Since then with some planning and through district partnership the fields have undergone significant improvement. The field has been enlarged, rocks removed, new loam and seed with irrigation installed. The trail areas have been improved and the area where our Equipment Shed is located has been graded, gravel brought in and drainage installed.

This year we head into the home stretch of improvements by the addition of two more sets of lighting stations that have been installed, which will illuminate the south end of the field and we broke ground to build our new Storage Facility on site on June 29th. LYFS at one time rented 4 storage locations. We will eliminate the final facility this year and have a location to house all of our new and current inventory of field equipment this month. You will also be able to view the wall of LYFS history in our 40th year anniversary in 2012!

LYFS extends its appreciation to Gary Richard/S&K Construction as well as Keith Garside at Garside Septic & Excavation for the groundbreaking this week and the effort to install our new facility. Please thank and patronize these two outstanding business' and individuals!

Groundbreaking at Wildcat Facility on June 29, 2012 and wow it was hot
