

## **33 Umbrella**

Philosophy- The 33 umbrella is a very aggressive gap control attacking style defense with very little read and react. This defense lives on the fact that every look is unique to the offense by simple rules of alignment. The 33 also allows certain positions the freedom to do different things without having to communicate to the rest of the team. The 33 requires very intelligent players who can recognize formations and tendencies on the fly. Ninety percent of all coverage's are man up cover 1. Seventy five percent of all snaps will bring 3-5 defenders directly at the offense. Twenty five percent of all snaps will bring up to 7 defenders directly at the offense. Blitzing is disguised by delays and taps. The 33 is a very difficult defense to block consistently because of all of the movements. A great 33 defense will rarely show the same look in any given series of plays but still allows very sound football. Sameness is death to this defense. The biggest attribute as a whole is the 33 umbrella's ability to be flexibility on the fly and is a very easy teach. Real simple, real effective.

## 33 POSITIONS- BASE

N – Nose guard. Run stuffer that must recognize offensive alignments and be able to play read and react or attack. His alignment is always head up ( 0 tech) when the interior offense is odd or in a 1 tech to the strong side when the interior offense is even. He always counts a TE if split less than two yards. More than two yards then ignore. The exception is the Utah call (full taps) is always a 404 alignment.

T- Defensive tackle. Run stuffer with pass rush skills. Must possess good rip / swim / wrong arm techniques. Must be quick off the football and able to align credit card depth without getting flagged. Always plays four full techs off the Nose to the strong side or the wide side of the field. Must be able to play the Arizona tilt technique.

E- Defensive end. Run stuffer with pass rush skills and good overall speed. Must possess good rip / swim / wrong arm techniques. Must be quick off the football and able to align credit card depth without getting flagged. Always plays four full techs off the Nose to the weak side or the short side of the field. Must be able to play the Arizona tilt technique.

W- Weak Linebacker ( Will). Run stuffer that can play pass coverage. Must be an excellent tackler with superior speed. Must be big enough to take out lead blocks and be a force player.

M- Middle Linebacker (Mike). Run stuffer with superior tackling skills.

S- Strong Linebacker (Sam). Run stuffer that can play pass coverage. Must be an excellent tackler with good speed. Must be big enough to take out lead blocks and be a force player. Must be able to play man coverage on Tight Ends.

B- Bandit. Must be the total package. Must be able to play force for the run and cover 2 for the pass. Must be able to play man coverage against Tight ends and Running Backs. Speed and size is critical. Must be able to recognize offensive formations. Must be excellent on the perimeter and possess superior open field tackling skills.

PB- Pitbull. Must be the total package. Must be able to play force for the run and cover 2 for the pass. Must be able to play man coverage against Tight ends and Running Backs. Speed and size is critical. Must be able to recognize offensive formations. Must be excellent on the perimeter and possess superior open field tackling skills.

CL- Cornerback left (Clyde). Absolutely must be able to play bump and run techniques with superior cover skills. He is the man on the island. Must possess superior open field tackling skills.

CR- Cornerback right (Chris). Absolutely must be able to play bump and run techniques with superior cover skills. He is the man on the island. Must possess superior open field tackling skills.

FR- Freak. The leader of the defense. Speed is critical. Must be able to recognize offense formations and makes all audible calls. Must be able to play run support downhill and fully understand zone cover concepts. Must possess superior open field tackling skills. Base is always cover 1 so this position is encouraged to go for the pick or the big hit.

## 33 RULES OF ALIGNMENT vrs PRO

N – Align in a 1 tech to the strong side when the interior offensive shows even numbers. Align in a 0 tech when the interior offensive line shows odd numbers.

T- Align in a 5 tech to the strong side when the interior offensive shows even numbers. Align in a 4 tech when the interior offensive line shows odd numbers.

E- Align in a 3 tech to the weak side when the interior offensive shows even numbers. Align in a 4 tech when the interior offensive line shows odd numbers.

W- Stack the D-End and mirror the near backs depth

M- Stack the Nose and mirror the near backs depth

S- Stack the D-Tackle and mirror the near backs depth.

# TERMINOLOGY

## Alignment Techniques-

Set the force- play the football outside arm free in order to turn the play inside.

Spill and kill- play the football inside arm free in order to spill the play laterally.

Playing cousins- near linebacker blows up a lead block while the next backer makes the tackle.

Arizona tilt- DT and DE tilt at a 45 degree angle and earhole the OG's in order to draw the double team.

Fill / scrape / hang- rule for all linebackers at the snap if not in a blitz call. Ball shows inside fill, ball shows outside scrape, ball goes away hang for counter.

Rip / swim / wrong arm- techniques used by linemen to attack a block.

Shade- align off man slightly inside our outside.

Mirror depth- rule for backers in man coverage and run support.

Deepest back- deepest back in the offensive backfield at the snap.

First back out- First back in the offensive backfield to show your way after the snap.

Credit card depth – linemen aligned close to the neutral zone

Sugar- delayed blitz from the perimeter

Pepper- delayed blitz from the box

Get in on the hip- follow a pulling O linemen

Cross the face- attack a pulling O-linemen

Invert- Backers switch cover responsibilities.

Outside arm free- term used to allowing nothing lateral or outside

Auto blitz- term and responsibility for a backer with no man coverage responsibilities.

Play taps- linebackers buddy up with their stacked linemen and tap a gap for the blitz

EMOL- End man on the line

LOS- Line of scrimmage

BLACK –Man Cover 1

PURPLE- Man cover 2

SIVLER- Zone
