New Business:

- Tim Woolston spoke on many items pertaining to communication between the board and the general membership. While the managers are usually our line of communication, many ways were discussed to improve on that line as well as additional means. We will be attempting to add more information on the website pertaining to ice time and what members should expect to get for their registration fee. Suggestions were made to have a team rep from each team or level attend monthly meetings so they are fully versed on what transpires and why. That way there are more people that can answer questions from the members. All of the suggestions will be considered by the board with recommendations to follow.

Motion to adjourn made at 8:45 by Dick and seconded by Greg.
