monthly tips from Positive Coaching Alliance

When I Become the Coach

What if you know more about the game than your child's coach? Even some of the best coaches – professional and college coaches who have kids in youth sports – resist the temptation to give advice to their child's coach. If these elite coaches who know so much about their game refrain from giving advice to their child's coach, so can we!

If you do have some really wonderful tactical advice for your child's coach, write it down and put it in a folder labeled "When I Become the Coach."
