Meet with landscaper.

\$7,000 to do maintenance, which is split with Booster club.

He will repeat same procedure as last year with winter rye seeding.

Band field is on the booster club to handle.

The way it gets paid is that Paula emails Sheri invoice and BC pays half.

Dann asked if we do nothing would the county continue to mow? Yes.

Mr. Leake suggested that even if we get away from current guy we should still pursue keeping up with the grass as field are in short supply.

The increase in cost is due to the switch from fescue to Bermuda grass.

#### **Spirit wear-** Chris Reeder

BSN is the primary vendor for athletics in area. They got the HS contract again.

They used to use Nike but now will use Under Armor (UA).

There will be more benefits with middle schools (MS) especially middle school basketball.

The county has aligned with UA at the HS level and MS basketball.

Each AD will get \$1500 in UA product for the school sports.

The rebate program for the MS, in the past, has been wrapped up in the HS. Up to this point it has been a 7% rebate. It will now be 10% with the MS being separate from the HS.

Definitely see more bang for the buck since every quarter a rebate check will come back in the form of product.

Must spend the rebate all at one time. Fall spending goes to winter/spring sports. There will be no carry over. Each school will have until the beginning of the next quarter to spend their rebate money.

**Invoice from Adam Thomas- Sheri**

The board approved a breakaway banner for \$300.

The banner was never ordered but instead flags were purchased in the amount of \$1840 and new signs were ordered in the amount of \$25.75.
