The Rochester *RedWings* Hockey Program was formed by Founder and President Jay Kirk in March of 2001. The program grew from Independent to Tier III and for the past five seasons have competed as a Tier II Program. Hundreds of players at all levels have taken advantage of the area's Elite combination Off-Ice / On-Ice training and development offered by Kirk and his staff. Many players have and continue to realize very high levels of success within High School, Junior and College programs. *RRW* developed players are recognized at these levels as Elite players. This is a very proud statement for a program that develops players other programs found "unworthy" of the opportunity to compete at higher levels.

The *RRW* Program stands by 2 statements!

"We Never Look To Recruit The Best... We Develop The Best"

AND

"The Commitment To Excellence Begins Here"

The Rochester **Grizzlies** initially were established as a spring and summer development program for players ages 5 and older in February of 2007. Founder and President of the **Grizzlies** Glenn Collins realized immediate successes with his unique approach to player development. Those successes created the opportunity to organize teams at various levels that now train, practice and compete in games during the traditional youth hockey season. **Grizzlies** teams currently compete as independent teams at various levels. **Grizzlies** teams are recognized within the area at their levels as competitive, regardless of status. A proud statement for a young program.

Collins and Kirk combine more than 50-years of training and development experiences. Both spent several years working together developing players dating back to the early 1990's utilizing the concepts now being supported by USA Hockey, (**The ADM**). Glenn and Jay realize that one true / complete development program offering opportunity at all age levels needs to exist in the greater Rochester area. The combination of the two programs will guarantee that local players will have a training and development opportunity with expert player development leaders. Players lacking the immediate skills of others, yet have the desire and drive to be developed regardless of current abilities, are now able to realize their full potentials within the opportunity.

Coaching opportunities are available at all levels and interviews begin February 1st. Team and levels being offered will be listed on both sites by January 31st. Keep an eye on both web sites for the latest news and events. www.RRW Hockey.com www.RochesterGrizzlies.com

"Rochester's Highest Level Of Hockey Training And Development"
