

Refund Policy

The Club does not refund annual dues with three exceptions:

- The parent(s) or guardian(s) of a player has experienced an economic hardship since payment of Club dues.

For purposes of this subsection of the Club Policies and Procedures, “economic hardship” is defined as a severe financial setback on the magnitude of the loss of employment or a substantial reduction in family income which must be demonstrated to the satisfaction of the Executive Board. The Club will not consider the inability of parent(s) or guardian(s) to afford multiple youth activities as constituting the basis for a refund under this section.

The amount of the refund for economic hardship will depend on when the Executive Board receives the request. If the Executive Board receives the request prior to the start of the fall WYSL season, the Club will provide a 100% refund. If the Executive Board receives the request after the start of the fall WYSL season but before the start of the spring WYSL season, the Executive Board will provide a 50% refund. No refunds will be given once the spring WYSL season begins.

- A player has sustained a medically determined physical injury or mental illness prior to the beginning of the WYSL season which prevents said player from participating in any games and practices for that season. For purposes of this subsection of the Club Policies and Procedures, the “WYSL season” is defined as either the beginning of the fall season of league play or the beginning of the spring season of league play, whichever is applicable. If the injury or illness occurs after the start of the WYSL season, the Club will not refund any portion of the dues.

The amount of the refund for a medical injury or illness will depend on when the Executive Board receives the request. If the Executive Board receives the request prior to the start of the fall WYSL season, the Club will provide a 100% refund. No refunds will be given if the request is received during the fall WYSL season. If the Executive

Board receives the request after the end of the fall WYSL season but before the start of the spring WYSL season, the Executive Board will provide a 50% refund. No refunds will be given once the spring WYSL season begins.

- A player registers and participates in what were advertised as tryouts to form two or more teams at that grade level (i.e., either tryouts for A and B teams or tryouts to form balanced teams) and, due to an insufficient number of players to form more than one team, the Executive Board authorizes the formation of one team with a roster n excess of 18 players.

The Executive Board must receive all requests for refunds under this subsection of the Club Policies and Procedures no later than July 1.

Scholarship Policy

Rye Brook Youth Soccer will never deny a child the opportunity to tryout and play for a club team due to a child's inability to pay annual Club dues. Upon application to the Executive Board, the parent(s) or guardian(s) of a player may request a scholarship covering all or partial payment of the Club's annual dues. All requests for scholarships will remain strictly confidential. The power to review and grant scholarships resides with the Executive Board. The Executive Board may, at its sole discretion, attach conditions to the issuance of any scholarship.
