

Hockey Development Sundays Nights

Over-Speed/ Stick-Handling / Skating / Decision Making

The Hockey Development Program at The Bog is designed to incorporate the hockey fundamentals of speed, skating, stick handling, and decision making. Two top professionals in the sport, Sean Coady and Rob Davies, will be heading up the program. In developing each player's overall fundamental skills, the coaches will utilize over-speed training methodologies to push the players outside of their comfort zones during practices such that the behavior becomes second nature during game situations. Skating and stick handling techniques are also taught and utilized in conjunction with over-speed training. Small area games will incorporate all of the tactics and develop the fundamental skills of decision making, awareness, and skating/stick handling techniques..
