

Franklin Youth Lacrosse Helmet

The R helmet marks the most advanced impact management system Cascade has ever created. The dual SevenTech™ and Poron®XRD™ liner system addresses both high and low energy impacts. An aggressive design that is distinctively Cascade, The R conveys speed, power, and performance. Another milestone in the winning history of Cascade

Product Specifications

- The SevenTechnology™ liner system is a ground-breaking impact attenuation system designed to more effectively manage energy transfer from direct high energy impacts. On impact, the Seven Technology liner system compresses to laterally displace energy and within seconds, it completely resets to ready for the next impact.
- PoronXRD™ Foam: New to the Cascade line of helmets, a pliable material offering maximum comfort with the ability to dissipate linear force from low energy impacts.
- HardTail SPRfit™: By combining the HardTail SPRfit™ with three customizable jaw pads, the player will feel a 360 degree contour fit that can be micro-adjusted on the fly.

Cascade R Helmets ordered by **November 30th** are scheduled to arrive before the holidays.
