

GLOVES

Lacrosse gloves are a very important piece of equipment. For kids just starting out, the lower price gloves are fine to see if they really like the game or not. If they stick with it, upgrading the gloves is a great investment. The higher-end gloves offer more protection, flexibility, durability, and comfort, which leads to better play. There really is a difference between \$50 and \$150 gloves... it's not just color and flash.

Options:

- Size
- Color

More \$\$:

- \$ < \$60
- \$\$ \$60-\$120
- \$\$\$ > \$120

- More Protection
- More Flexibility
- Better Materials
- More Ventilation

Goalie Gloves:

Goalie gloves look just like field gloves, except that the thumb protection is greater. Goalie gloves are often \$5-\$15 more than the field version.
