

Practice Plan

013/015-9

- 0 to :10 - Warm up, scoops, passes, ball control, shooting on goalies**
- :10 to :15 - Stretching**
- :15 to :20 - Warm up jog around the field**
- :20 to :35 - Around the world (32) - Quick passing and shooting**
- :35 to :40 - Water break**
- :40 to :50 - Slide stack drill (32) - For defensive communication**
- :50 to 1:10 - Inside out with defender (22) - Great drill for quick movement**
- 1:10 to 1:20 - Scrimmage**
- 1:20 to 1:30 - Conditioning**
- 1:30 to 1:45 - Scrimmage - use scenarios that you might find in games**
- 1:45 to 2:00 - Cool down and end of tryout practice talk**

Around the world

This is a quick passing drill that illustrates the importance of good movement off of a basic offensive situation.

What you need – The set up for this drill is as follows: one attacker behind the net, one on each side, and three midfielders across the restraining line.

How this drill works – The play begins with the first midfielder on the left. The middle midfielder moves forward in front of the net, and the drill begins with a pass from the left midfielder to the right midfielder.

Then, it is down to the right attacker, to behind the net, to the left attacker. After the first midfielder makes the first pass, he goes to set a screen for the far right midfielder, who uses it to cut through the middle to receive the final pass from the left attacker (after it has gone 'around the world'). The midfielder takes the shot, using the center midfielder (in front of the net) as a screen.

Result – Your players will understand and appreciate the need to move the ball quickly, and they get the experience of using a formation to create offense.

Slide stack drill

This helps defenders work together to put pressure on attackers that outnumber them.

What you need – Create a 10-yard by 10-yard square with two defenders in the middle and four attackers on each of the outside corners.

How this drill works – It starts with a single pass from one attacker to the other. At this point, the first defender takes up a position to pressure the attacker, while the other defender stays in the middle to protect against the pass across.

Then the pass goes down to the next corner and the roles are switched. The middle defender goes to the corner and the other defender shifts to the middle. The next pass goes and the defenders switch again.

To make it more difficult on the offense, you can add in a third defender.

Result – Quick passing and good defensive communication is created with work in this drill.

Inside out with defender

Similar to the drill in the last skill section, but this one has the added element of a defender.

What you need – Set up an area about 20 yards by 20 yards. Have 5 players on the outside, with 8 players on the inside. 5 players on the inside will be pass receivers, while three will be defenders.

How this drill works – There is going to be a lot more action in this drill, so it is important that players learn to keep their heads up and keep their minds in the action.

The three defenders will provide half resistance and will be more bothersome than anything else to start this drill. But, as players become more comfortable with the drill, then defenders should start to put increasing pressure on pass receivers and pass makers to come up with good moves and to use shielding techniques.

Each time a pass is made to the outside the players switch spots and then outside player (who is now inside) tries to do the same thing – pass it to a player on the outside.

Result – This drill will help players develop the skill to pass, carry and receive under defensive pressure.

Three zone shooting

Players should get used to shooting from more than just the slot area.

What you need – Set up three cones, each about 10 to 15 yards from the net. You can have players at all three cones, with a couple of balls at each cone. You can have a goalie for this drill if you like.

How this drill works – This is a basic drill, but it is extremely valuable in the development of the player – especially the attackers. At each pylon players will scoop up the ball and take a shot. Once they take a shot at one area, they will rotate to another area.

If you have two goalies, you can set up two groups to provide for more repetition for the player.

Result – Increased shooting skills.
