

Testimonials for Holy Name Learn To Skate program 2016

Your learn to play program is second to none. My three children started with another learn to skate program for a couple of years and weren't progressing. We decided to switch mid-season to Holy Name and within a couple of months all three of my children had made huge strides and my three year old finally gave up the walker!! Steve and his assistants encouraged each of my children by name each week and made them feel great about the progress they made, so much so that all three of them tried out for teams this past week. Thanks Coach Steve and team for a wonderful program.

Steve

One of the probably many emails you will get this morning complimenting you and your program for the amazing experience and guidance you provide. Seeing my son get out there each week and the pat on the helmet and the words of encouragement that you and the other coaches/volunteers provide is truly amazing. My husband and I have never questioned we made the right decision picking your program.

Thank you so much, Lisa D

To watch my son develop over the course of the LTS season was awesome. He was challenged and excited every week by the drills, and the skills he was learning. The LTS experience perpetuated his love of hockey, and he looked forward to every Sunday. Kudos to Coach Moore for his dedication to the kids and to teaching the sport of hockey. We certainly would recommend Holy Name to anyone.
