

# The Intrepid Ambassadors Program

Providing Members of The Intrepid Family with Service Opportunities Since 2011.

The Intrepid Ambassadors Program was created in 2011 out of Director Becky Luzier's desire to provide Intrepid players with more opportunities to hone their leadership and business skills. By creating service opportunities that allow members of the Intrepid Family to work together off the field, we strive to foster a deeper sense of community and allow the girls to grow in their conviction to help others as well as gain confidence in areas that interest them professionally,

## The Team-Up! Intrepid 5k is Born

---

In the spring of 2011, 2013 Elite player Devan Donovan suffered a concussion and was sidelined for several months. During that time Devan had several conversations with Becky about getting the club more involved in service projects that the players could work on together with the support of the club. A passing comment about a non-profit group called The Intrepid Fallen Heroes Fund planted a

seed with Devan that grew into something amazing. In the fall of 2011, Devan approached Becky with an informal proposal about holding a 5k to benefit The Intrepid Fallen Heroes Fund, which raises money to aid in the research of treatment for traumatic brain injuries and the support of military families struggling with the diagnosis. Devan worked diligently on the event for several months and Intrepid has now raised over \$10,000 dollars via the annual run.

---

## Successful Projects Continue

---

The 5k has been a great way to raise awareness about the club's desire to support the girls in getting more involved in helping others. In 2013, Breanne Vodde and her teammates of the 2014 Elite team spearheaded a food drive to benefit the Hurricane Sandy-ravaged food banks of the New Jersey coast when the team traveled there in July. The girls collected nonperishable items and were able to deliver the boxes to the food pantry in between games. This commitment to fill the shelves of food banks continued in the winter of 2013 when the players attending Intrepid's Team Selections collected non-perishable food items that Ali Cox of the 2017 Elite team delivered to the food pantry at South Hills Interfaith Ministries

In 2014, we look to build off of the momentum of service begun in previous years while also allowing for opportunities to support the club in areas of interest to our members like business, marketing, and event-planning, while also continuing our focus on coaching internships.

Players are encouraged to Contact Becky Luzier at [intrepiddirector@aol.com](mailto:intrepiddirector@aol.com) to solicit an application packet if they wish to seek Intrepid's support for a fundraiser or service project of their choice or if they are interested in service experience related to Intrepid's Social Media presence, the planning and execution of the club events throughout the year, or the brand new Intrepid Calendar program.
