

RJM Field Turf

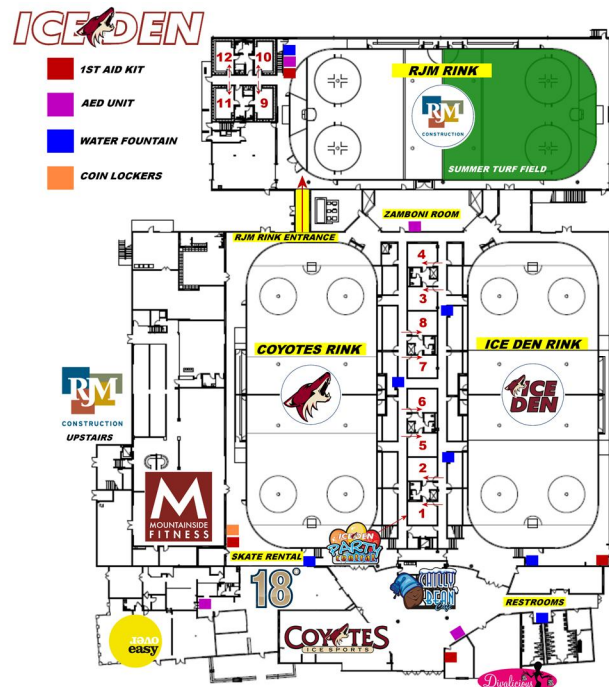

Thank you for using the new RJM turf field here at the Ice Den. To ensure your experience is enjoyable, please take a moment to familiarize yourself with the following items:

Arrival:

Upon arrival, please enter the Ice Den's main entrance (north side). Coaches should check the locker room monitors (main lobby) and determine which locker room(s) have been assigned. At that point, please report to the admin office (to the right of the front door) and secure your room key. The locker rooms for the turf field will generally be 9, 10, 11, and 12.

RJM Rink:

After determining the locker room, teams will head to the RJM Rink (turf field) which is located immediately behind the Coyotes Rink. Simply follow the arrow signs inside the Coyotes Rink (rink on the left) and turn left and down ramp. Walk around this rink to a set of doors under the scoreboard (clearly marked RJM Rink). Walk through the breezeway into the RJM Rink. Once inside, players/coaches will continue straight ahead following the signs to the locker rooms. Parents and spectators will walk to the right toward the west end where bleachers are located. Perimeter benches are located around the rink boards as well.

Locker Rooms:

Default status for all Ice Den locker rooms is ~~locked~~ As mentioned, a locker room key can be secured from the Admin. Office (Ice Den lobby). Teams are responsible for using and securing their locker room. Rooms left unsecured are not the responsibility of the Ice Den and the Ice Den is not responsible for items lost or stolen from an unsecured room. In addition to securing the outer doors, teams must also lock the inner door to the shower room. This is a shared space with an adjoining locker room so remembering to secure the inner door as well is very important. Teams can generally enter their rooms up to 45 mins prior to their field time and stay as late as 45 mins after.

Entering/Exiting the Playing Field:

Teams are asked to enter the field from the team bench area only. All other doors/gates should be closed at all times.

Shoes:

All players and coaches should only wear athletic (tennis) shoes. The Ice Den turf field is not designed for cleated shoes and cleats will not be permitted on the playing surface.

Food & Beverages:

No food is permitted on the playing surface at any time. Likewise no beverages are permitted as well. Water and sports drinks should be limited to the player bench area.

Gum and Tobacco:

Gum and tobacco products are prohibited on the playing surface at all times.

Vandalism:

Players or spectators who are found deliberately causing damage to any area of the field or the facility in general will be held financially accountable for any repairs and may also be suspended from utilizing the facility in the future. Surveillance cameras are located throughout the facility and are referenced as needed.

Facility Assistance:

For immediate staff assistance, please report to our operations rooms (look for the large garage roll up door located at the mid-point of the north wall). Generally, a member of our operations staff will be present. If not, please report

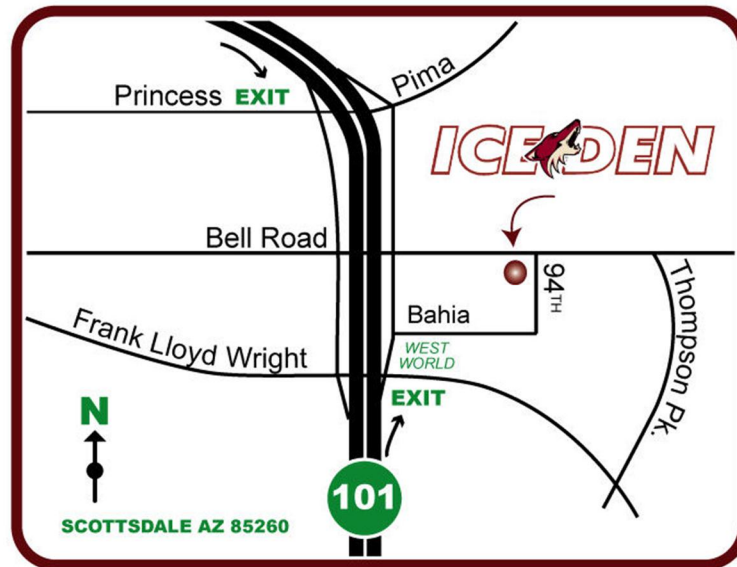

to the admin. office in the main lobby. You can also call the admin. office using the phone located at the scoretable. Admin can immediately radio a member of our operations dept.

Our operations staff can generally assist with any issues regarding the turf field, glass, dasher boards, goals, score clock, etc. In addition, our operations dept. will monitor the field time and is responsible for ensuring all games and practices start/end within their allotted time. They will ensure each team gets their allocated time so please defer to them if there is a question.

Injury:

For the safety of all participants and spectators, a first aid box and AED unit are located on the east wall (close to the locker room hallway). In addition, a phone (with a facility call sheet) is located at the scoretable. If there is a serious injury, please call 911 (dial 9 first) and immediately notify an Ice Den staff member.
