Subject: Platform for Travel Hockey Director

I would like to be considered for the STAHA Board of Directors Position of Travel Hockey Director.

Over the past two season I have served the membership in various capacities, including Team Manager and Interim Registrar. These opportunities have allowed me to develop strong working relationships with other Norcal clubs, As well as members of the Norcal board of directors. I would like to build on these relationships to create more opportunities for our organization. As well as pursue opportunities to promote our club outside of Norcal.

I also bring to the position I strong understanding of the CAHA and Norcal compliance requirements. I will work closely with the team managers and registrar to ensure all of our teams are compliant. As a long time administrator the American Youth Soccer Organization, helping develop and implement the "everyone plays" philosophy as a means for developing stronger players. I value the USA Hockey, American Development Model (ADM) and I will do my part to ensure every Grizzly is afforded the opportunity to develop their skills and their love for the game of hockey.

Thank you for your consideration.
