

Hello STAHA members,

Thank you for your time and for considering me for the VP of Development position. As Coaching Director, I have had first-hand experience with how important the VP of Development position is and I feel I could be a great asset to STAHA in that position.

I've been Coaching Director the past 3 seasons. I've also coached Mites and Squirrels 4 seasons. I am a huge believer in the ADM process and would continue to implement the ADM model in STAHA. I have seen first-hand how the small space drills, smaller number of players in groups and focus on skill development has greatly improved our overall skill level at STAHA.

With my experience as a Coach and Coaching Director I feel that I could work closely with our coaches to see what they would like to work on throughout the year. I'd like to work with our new Coaching Director and have a plan from each coach telling me a few things they'd want to focus on (skating with your head up, breakouts, passing, forecheck, etc.) and then use outside coaches like Mickey Lang (Icemen coach) to help with those items.

I'd also like to bring in other coaches, trainers to help with Skating. Hockey is skating.

Joanie Malarchuk, Mickey, Robbie Glantz, etc... there are a lot of valuable assets we can use to make our kids better skaters, therefore better hockey players.

Thank you for your time, if anyone would like to contact me and ask me any questions my # is 530-545-2195, email is jeremyswright@live.com

Thank you,
Jeremy Wright
