

Stack Offensive Set Plays:

- 1) StackDaddy
- 2) StackEgg
- 3) StackSlammer

All stack plays begin with 1 player behind the cage and 2 columns of 3 players arranged on the 12M fan just above the elbow.

1) Stack Daddy

1st player in column opposite ball handler behind cage cuts towards goal to receive a feed. If no feed, she loops up to opposite stack and fills in. 1st player in column same side as ball handler cuts towards goal. If no feed, she rolls back up to opposite stack and fills in...and so on. Basically this play is a figure 8 pattern. Ballhandler can roll crease at anytime.

Variation: TBD
