

2) Stack Egg

1st player in column opposite ball handler cuts toward goal for a feed. If no pass, she loops back around and fills back in to the same column she came from. 1st player in column same side as ball handler cuts towards goal looking for a pass. If none, she loops around and fills into the same column. Process repeats.

Variation: "Pickled" Egg

First player in column sets a pick for second player who then cuts to goal
