

Notes:

1. The field labeled “Not in use” is also known as the “Snack Shack Field” and will now be used for some games, mostly in the beginning of the season, until construction starts.
2. CC270 has signs on the field that say CC260. It used to be a 60ft field but is now a 70ft field. The markers they put over the 6 to be a 7 have been removed unintentionally.
3. There are batting cages near CC190, CC290, and CC270 (CC270 is beyond the left field fence).
4. Cars are not permitted to stop and drop off kids at CC270 along the 3rd base line. The police monitor this. Please only drop off along the 1st base line.
5. There are times of the year when other sports are played in the complex. Please be cautious of the many children and pedestrians you may see, especially at dusk or dark when the lights are out. This area is also a public park and the roadways lead to other township or public properties connected to the Civic Center.

6. There are bathrooms at the Snack Shack, Civic Center, and porta potties are located at various locations throughout the complex.
