

Dear Parent of a Future Unionville Chadds Ford Athlete:

The Unionville Recreation Association takes great pride in its program to teach young girls the mechanics, techniques and mental toughness to be a student athlete who excels in studies, sports and life. We begin with our entry level students (PeeWee's) and teach them to catch, throw and hit a softball in a clinic format.

Softball girls learn how to become assertive, increase self-confidence through achieving success of playing a team sport and how to focus on the task at hand to make it possible to achieve a goal.

Pictures similar to the above could be of your daughter next year, demonstrating her love of sport and team (look at the intensity in those eyes). This year we will hold bi-weekly clinic practices for PeeWee's from April 1st until June 15th. Ms. Julie Hatfield (<http://www.jhatfieldfitness.com>) will assist parent volunteers and Middle and High school student athletes to teach our PeeWee's the art of playing Softball.

Go to <http://www.urasoftball.com/Registration/Default.asp?org=urasoftball.com> and register your daughter for the Spring Softball Season and watch her grow by developing her softball skills and self-confidence. If you have questions please feel free to contact:

Paul Karl Horan; URA Softball Coach; 774-278-0150; Email: pkhoran@yahoo.com
