

## **Bethlehem Tomboys Girls Softball League Protocol for Rescheduling Rainouts**

Every attempt is made while making the schedule to avoid conflicts with school events that would impact a team's ability to play their games. Similar efforts will be made **but cannot** be guaranteed under any circumstances to reschedule games that have been impacted by weather.

When games are cancelled due to weather the following steps will be followed:

1. VP of Rec will email division coordinator with tentative makeup date, copying the league Jr Umpire coordinator (Tony Apuzzi currently) for Primary games, and the Tomboys Umpire assignor (John Deflumer currently) for all Junior division games and above.
2. Division Coordinator will inform the managers of the reschedule date.
3. Jr. Umpire Coordinator and Tomboys Umpire assignor will confirm umpires with VP of Rec.
4. VP of Rec will confirm the reschedule date via email to Division Coordinator, League President and Website Master (so that reschedules can be posted and update online).

Youth rainouts do not require an umpire, reschedules for this division will be handled directly between the division coordinator and the managers.

For the purposes of making schedules work the first plausible date for reschedules should be attempted. Games take precedent over practices.

In the event that a team's practice time gets bumped they can look at the master schedule and request time in a currently open block. Requests for new practice time should go through division coordinators, who should immediately confirm with the VP of Rec.
