2019 Tournaments

How are tournaments picked?

There are numerous summer tournaments happening all over the country, so how does NPL decide which tournaments to attend?

- 1. Past experiences** – Nebraska has been traveling for numerous years now and has made good relationships with many tournament directors. We have learned which tournaments fit our level/expectations.
- 2. Location** – While the Midwest is expanding its growth of lacrosse each year, it is still not as prevalent as other areas of the country. So we look to the closest areas to Omaha where we can still be competitive.
- 3. Host of the Tournament** – While there are often some more “local” tournaments in Kansas City and Minnesota, these are risky as they often do not get enough teams at every division. So to ensure we can make the appropriate travel arrangements and guarantee games, we choose larger more established tournaments hosted by well known programs such as US Lacrosse, NXT, Adrenaline, etc.
- 4. Competition Level** – Travel lacrosse is for the highly skilled player who is looking to improve their game. So we select tournaments where we can still be competitive while also trying to reach outside our comfort zones and play against some strong teams. This shows us the level we need to get to in order to start to get on the same page as the rest of the country. We play to learn and improve, not play in lower skilled tournaments just to win games.
- 5. Recruiting** – For High School teams we try to get the most looks from college coaches. NE Travel has had great success in placing kids in appropriate colleges.

Please note that tournaments may be adjusted after tryouts depending on how the teams are formed
