

Effective immediately (2011 season).

Little League International has placed a moratorium on the use of composite bats in the Little League (Majors) Division and all other lower baseball divisions of Little League.

- At present, no composite bats for the Little League (Majors) Division and below have received a waiver. If and when any models do receive a waiver, Little League International will inform its leagues of that decision.
- Under the new rule, bats with composite handles and tapers would still be legal {Hybrid Bats}. The stricter language applies primarily to the barrel of the bat.
- The following bats below have in their description the following phrase(s) which disallow them from being used in Little League: *"100% composite and/or composite barrel"*

****This list is in no way a complete list of all bats which are banned by Little League and is merely a reference guide. If you are unsure please contact Eastern Regional Little League Headquarters:**

Phone: 860-585-4730 / Fax: 860-585-4734
