

ÖSSUR TEAM SPORTS PROGRAM

Have you ever caught yourself saying "If the team would only have had this key player, we could have gone so much further in the playoffs?" Össur is dedicated to protecting players, keeping them in the game, and enabling them to continue playing the sports they love.

Össur is Protection.

Össur is in the business of improving people's mobility. A leading global company in non-invasive orthopaedics, we deliver advanced and innovative bracing, support, and prosthetic technologies. Össur has more than thirty years' experience in the design and production of high-tech orthopaedic devices.

Össur's work, however, is as much about people as it is about products. Their comfort, confidence and rehabilitation are central to our endeavors. We never forget that every time we develop a product or service, we are helping someone else to build a better life.

Benefits of Prophylactic Knee Bracing.

- Reduce incidence of collateral ligament sprain to key position players, such as linemen
- Increased protection for quarterbacks, whose lead legs are vulnerable in throwing motion
- Increased protection for players with existing ligament sprains

Perhaps you understand the effectiveness of knee bracing but found it cost prohibitive, until now.

Key Features of Össur CTi Ligament Braces.

- Tibial capture system protects the ACL using a non-elastic strap upper cruciate strap to oppose force to the femur while the rigid frame controls anterior and posterior movements by encompassing the tibia along the tibial crest
- The rigid frame provides medial and lateral protection with a multi-point support system throughout the brace (bullet) Outfitted with anatomically correct Accutrax hinges, the rock-solid CTi carbon frame provides a rigid exoskeleton that stabilizes the knee joint
- Breathable liners coated with bio-inert Össur Sensil Silicone ensures CTi remains properly positioned on the leg, for optimal functional benefit

Team up with Össur and let us work with you to give your players the best protection possible.

For more information on the Össur Team Sports Program, please contact the Össur Team Sales Representative at (800) 233-6263, Ext: 102-3863.
