

Central Cal Elite Lacrosse Grievance Policies

Central Cal Elite encourages open communication between players, parents, and coaches.

It is our expectation that coaches will be approachable and players will communicate with their coaches. If a grievance arises, however small, please use the following guidelines to resolve the grievance.

1. Player should talk to the head coach directly to explain and resolve the problem
2. Player and parent talk to the head coach.
3. Player, parent and head coach take issue to the Central Cal Elite Director.
4. These steps are designed to give the player and the parent every opportunity to resolve a problem with the coach who is responsible for the guidance and development of the player and the team. ·· Please help the Central Cal Elite players and coaches by following the above policy.
