

2016 Harvard Athletic Association Scholarship Application

The Harvard Athletic Association would like to recognize the volunteer contributions made by former HAA youth sports participants once they move on to Bromfield School and organized HS athletics. The HAA Board presents awards each year during the Bromfield graduation to deserving seniors acknowledging their “giving back” to HAA programs by volunteering time, in addition to generating energy and interest for HAA youth activities.

Primary qualifications for the scholarship include:

- Consistent volunteering of time, energy, experience and talent to one or more of the programs offered by HAA including baseball, softball, basketball, soccer and lacrosse.
- A consensus view that the recipient has been a positive role model and mentor for younger players and has been “active & involved” throughout their HS years.

Participation in HAA programs by virtue of a paid position (referee, umpire. etc.) or by involvement in the community senior project required of each Bromfield senior (e.g. helping coach a team, running clinics, coordinating activities, improving playing facilities. etc.) does not in and of itself qualify a student for scholarship consideration. However, these activities would be viewed in a favorable light especially if they go significantly "beyond the call of duty."

If you would like to be considered for this scholarship, please fill out this form and return it to Mrs. Susan Farnsworth in the Guidance Department by April 29, 2016.
