

Athletes:

I will follow the leadership of my coaches and parents when it comes to the behavior that is expected of me, in all situations. I will give my best effort in practices and games to positively impact my team's performance. I will follow the rules of lacrosse to the best of my ability, and allow the coaches and officials to perform their jobs so I can improve upon my understanding of the game and overall performance. If a difficult situation should present itself, I will treat all individuals with respect and react in a manner that represents my program, town, sport, coach and family well.

Parents:

I will support my child and his/her coach to the best of my ability. I need to reinforce the values, ethics and sportsmanship taught by our program. I will cheer my team, not based upon score alone, but also based upon the effort given to achieve the best possible results. I will serve as a good example in winning and losing situations so my child can benefit from my ability to respond positively to challenging experiences. When faced with a difficult situation, I will conduct myself in a manner that will represent my program, town, sport and child well. In addition, I will speak with my child to ensure the proper things are learned in such a situation.

Coaches:

I will facilitate a healthy learning environment for my team. I will focus my attention on improving the progress our team makes regarding effort and team work, in addition to the outcome of a game and our record. I understand that my behavior sets the tone for this team and will do my best to instill a positive attitude in all of my players. When faced with a difficult situation, with an athlete, coach, parent or official, I will conduct myself (and my team), in a manner that represents our program, town and sport well.
