## CALENDAR SYNC WITH PHONE

- Please make sure you sync your smartphone to receive automatic updates on calendar changes (additions, cancellations, changes).
- You will need to verify that your smartphone accepts iCalendar Feeds or it will not work. Here are the steps:
  - Go to the Calendar on the website
  - Select your team from the Tag Menu (Ex: U13 Spring). You can select multiple teams. Make sure you don't have any unwanted Tags selected or you will get all of those events on your phone calendar
  - Select the "Subscribe to iCal Feed" at the bottom of the calendar
  - Follow the instructions from there
- Any changes that are made to the calendar on the website will be automatically updated on your phone. This also saves manually entering all of the events on your phone.
