MAISL Player Substitution/Addition Form

GRADE LEVEL _____ TEAM _____

COACH _____ (team requesting substitution)

TELEPHONE _____ EMAIL _____

All schools are required to submit a "Principal Verified Roster" prior to the start of each sport season. If you need to bring up a player from a lower league as a substitute this form **must** be filled out and should be submitted to MAISL before the weekend. If that is not possible it is to be presented to the referee (football or volleyball), scorekeeper (basketball) or umpire (softball) prior to the start of the game or match. The official must then forward this form to the appropriate Program Commissioner or they can be faxed in advance of the game

Remember a player can move up **for only one day** or they will be placed on the upper level team for the balance of the season. If they return to their former team, that team will forfeit any and all games or matches in which that player participated. Flagrant violations of these rules could lead to forfeiture of the opportunity to participate in Post-Season Tournaments or the entire sport season.

REMEMBER: A player substituting can not sub for another team in their same grade but can play on their rostered team the same day they participate with another team. Teams must always be more than 50% of "original" submitted Principal Verified Roster. A team can not add/substitute players for a league or tournament game/match to a player level higher than the "original" submitted Principal Verified Roster.
