Treasurer Report

Craig Ballard reported on NBR's current financial situation.

Addendum - Bruce Terry's statement prior to accepting nominations

As secretary, I'm tasked with looking out for NBR's health. I always viewed NBR's money as my own when deciding how I thought it should be spent. Especially after hearing of the cost overruns and incomplete work on the new field, I consider it foolish give \$10,000 in shakedown money to a town government that has shown NBR quite a lot of bad faith in the past. The money could be better spent elsewhere and I have failed as steward of NBR's resources because I could not convince you of that. Therefore, I will not accept any nominations for any board position in the next election.
