

How to find your schedule on the web page?

The pdf document showing each division's schedule will not be posted. This is to ensure that any changes are incorporated and I don't want to miss by having to post in two locations.

There are a couple options to see your games

1. Click on the team tab on the top of the web page.
 - a. Click on schedule
 - b. Select your division
 - i. If you leave the team as "select" it shows all the games in your division for the current week and you can click the >> arrow to move to future weeks
 - ii. If you pick your team, it shows all your games for the season
2. Return to the team tab on the top of the web page.
 - a. Click on multi schedule
 - b. Slide down and select as many teams as you want in your division (one to all) and it will then show your season schedule for those teams. (make sure you scan the whole list as it seems to leave some clicked)
3. Scores are posted under results.
