Philosophy

Staff – Our staff includes some of the finest college and high school coaches/players in the area

Fundamentals – One of our objectives is to teach the fundamentals of soccer players at a key development age. We will work with players individually to make sure they acquire the proper techniques in dribbling, shooting, heading, passing, and ball control

Individual Tactical Training – Players are taught to make individual decisions within the context of 1vs1, 3vs3, and 6vs6 competition. Teams learn offensive and defensive tactics. Coaches will assist players in decision making as we progress to groups and small side games.

Team Work/Sportsmanship – The concept of teamwork and sportsmanship are enforced on and off the field. Coaches will encourage players to respect and support each other.

Self-esteem – We want players to develop confidence by participating in group training while exploring and developing their skills

Fun – We want players to work hard, and have fun playing the beautiful game of soccer. The ratio of players to staff will be approximately 10:1
