

Mission Statement

We are committed to creating a positive environment where players can have fun, make new friends and develop a love of sport. We further commit to coach all of our players and work with each of them to achieve their personal potential. We will do this by building on individual successes and by treating mistakes as learning opportunities.

We are committed to teaching football, developing each of our players and providing them with a quality experience. To do this we will provide a safe environment for young athletes to learn the key skills necessary to succeed on the football field and, ultimately, we will seek to prepare them to play high school football. We believe that this mandate includes not only developing specific athletic skills but also developing a player's character including leadership skills, self discipline and confidence.

We are committed to teaching proper technique and safety. We will provide our players and coaches with the teaching tools and equipment necessary to ensure that each player learns the fundamental skills necessary to play football safely.

We believe that mutual trust and respect are critical to any organization and require that all of our players, coaches and parents demonstrate these values on and off the field. Through our example we will seek to teach our players to respect themselves, their team, their coach, their parents and their family.

Finally, we are committed to improving our organization. We will monitor, measure and constantly seek to improve the performance of our board, our coaches, our teams and players. We will do this with honesty, humility and respect for all involved.
