

AAD / USSSA INSURANCE REQUIREMENTS

As a condition of participation in the AAD / USSSA Baseball league all teams must have USSSA team insurance. If your team needs to have their insurance in place earlier than the current estimated league processing date of August 3rd, 2009 you are encouraged to process your team insurance on your own, through the USSSA website. For those teams who have or will be acquiring their insurance directly from USSSA Insurance prior to the date that the league will be submitting the insurance, it is required you name, as additional insured, several other entities. When processing the insurance please request certificates of additional insurance for the following organizations:

If you are using any Little League facilities or private school facilities for practice and need to add them to your team's certificate be sure to specifically name them on your insurance certificate – if the notification come before August 3rd email to abqussa@aol.com – if the notification comes after August 3rd contact Dalton Brown (USSSA Insurance) directly at 1-800-741-3014

If you process your own team insurance you will be discounted (from the league fee) the amount the league would have paid for your insurance - \$75.00 for 12u, and younger teams, \$91.00 for 13u and 14u teams and \$131.00 for 15u and older teams. The discount will be applied to your teams league balance when the league office has certificates for each of the above organizations. If you have or are processing your own insurance you must notify me via email NLT August 2nd. If you don't notify me that you have processed your own insurance and I insure the team you will be responsible for that fee.

Thank you,
Dana Gilmer
