

Town Website Configuration for MBYLL Player Registration

Mass Bay Youth Lacrosse League (MBYLL)

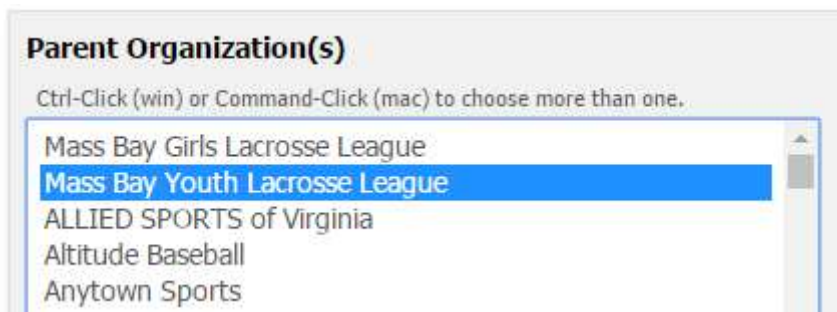

Mass Bay Youth Lacrosse League will be requiring individual player registration through www.mbyll.org and has worked with League Athletics to create a "Registration Prerequisite Flow" to ensure that the players register and pay their MBYLL membership BEFORE registering with their home town program.

This document serves to describe the quick three-step process for making that Prerequisite Flow work.

Three-step Process to Configure MBYLL Registration on your town's League Athletics Website

Step 1: Go to the Admin > Configuration > General Settings page and make sure "Mass Bay Youth Lacrosse League" is selected in the "Parent Organization(s)" window on the main General tab.

Step 2: While configuring your registration program(s), check the new box labeled "This registration requires current MBYLL registration." This will cause the US Lacrosse settings to disappear. You can (and should) leave this un-checked for other programs that don't require pre-registration and the usual USL and other fields will work as before (e.g. your girls registrations).
