HOW TO CLEAN WHITE BASEBALL PANTS

brought to you by Branchburg Baseball Uniform committee

Let's face it - trying to keep white baseball pants looking their best throughout the long summer season seems like a daunting job. But it doesn't have to be! There are a few easy methods** that you can follow that will keep the pants looking white and lessen the workload for you. Oxi Clean products are being recommended as they have proven to be effective in removing both grass and clay/dirt stains.

****Methods recommended by our Uniform Committee****

A little work goes a long way to keeping pants white

Proven Methods

GRASS STAINS

Start with dry pants and use the recommended **Oxi Clean Max Force Spray, Oxi Clean Max Force Gel** OR other stain removal spray - scrubbing the fabric together - let stand a couple minutes. Wash in hot water with detergent. Stain should come out on first wash. If it does not, DO NOT dry the pants - repeat the stain treating process.

ALL OVER DIRT STAINS

The best method to removing dirt stains is two fold - pretreat the worst areas (knees, rear end sliding spots) with the aforementioned stain removing sprays - let stand for a couple of minutes (15 minutes minimum). Start the wash load with hot water, add detergent of your choice (Oxi Clean makes laundry detergent as well) and add a scoop of **Oxi Clean White Revive - (this stuff is a miracle)**. Let the tub basin fill with water and allow the pants to soak for a minimum of 15 minutes (up to overnight if VERY dirty). After desired soaking time, close the lid and start the wash cycle. You can even allow the agitation cycle to begin and then open the lid to stop the cycle and let them soak.

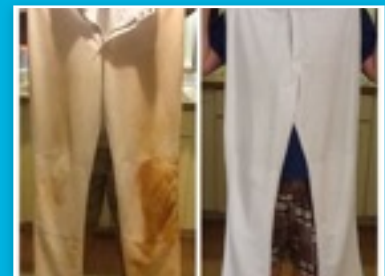

If there are shadow stains remaining after the wash cycle with **Oxi Clean White Revive**, grab a bar of **Fels Naptha** (in the laundry aisle of most grocery stores, Walmart, etc. cost is less that \$1.50/bar) and rub into the stain on wet pants. The bar will leave behind a “yellowing” on the pants - this is normal. Let sit for a few minutes. Wash as you regularly would.

There are differing opinions on drying the pants after they are clean. Some hang to dry, some dry as normal. The only issue is that if you do dry the pants in the dryer, this will most likely heat set in any stains that have not been completely removed. If this happens, return to the method of rubbing the stain with **Fels Naptha** - spot dampen the pants and rub with the laundry bar. Rewash as normal.

Welcome to Branchburg Baseball Club

A
message
from BBC
Board

As many of you may already know, we host monthly community meetings the 3rd Wednesday of every month. These meetings are intended to share information and progress about the club as well as hear from the community about what's on your mind, how you want to shape this club together with us as a board. Knowing that everyone's lives are busy, we post updates on our website and thought we would also begin sharing information via periodic newsletters such as these. We will see how it goes and hope to see you at the upcoming community meetings and at the ballpark!

Upcoming Field Improvements

We recognize and share many people's frustrations over the delay in major field improvements. The Club has actually made great strides over the past few years including the addition of the ever popular snack shack last year to the work done more recently by Phil Wengryn this year on fields 1, 2 & 7 dugouts. You may not realize that as a Club we have no governance or ownership of the fields themselves, rather the town of Branchburg owns and governs White Oak Park. The BBC works in close concert, as do other local clubs, with the township to manage and care for the fields and park grounds.

We have aligned the list of improvements our Field Maintenance Director, Tom Lawson, has proposed with that of the Township Committee's list. Planning is shortly underway and we hope to begin work this fall. Much of our financial reserves will go towards these improvements and we need your continued support, patience and help in ensuring the grounds remain clean and well maintained to protect our investments and keep the fields playable for all of our kids to come!! Stay tuned for more information!
