

Sycamore “Lacrosse for Everyone” Campaign

We Believe:

- Lacrosse is a fun, fast-paced game that helps build healthy bodies, positive self-esteem and community
- Every Sycamore child, regardless of their family’s financial circumstance, should be able to play lacrosse
- When our lacrosse teams include players representing the full diversity of our community, our children have a richer experience

The Facts:

- Despite being a relatively affluent community, 15% of the children in the Sycamore School district qualify for subsidized lunches
- Today, Sycamore Lacrosse is not broadly reaching lower income families in our community
- If were to enable more children to play, such that 15% of our players received the same financial support as the subsidized lunch program, we would need to offer 30 sponsorships

How Can Your Family Help?

If your financial circumstance allows you to help another child in our community, please consider sponsoring a player through the “Lacrosse for Everyone” program. Your contribution is tax deductible. Here’s our goal:
